27 POULTRY

PRODUCT DESCRIPTION

An all-purpose poultry feed. This nutrient profile makes it suitable for a number of species including chickens, turkeys, pheasants, quail, peafowl, ducks, geese, guineas, waterfowl and other miscellaneous poultry. It is non-medicated and can be fed as a complete feed to younger birds. It can also be mixed with grain for older birds.

FEATURES AND BENEFITS

Versatility to feed as a complete as well as a supplement.

Highly fortified with vitamins to meet the needs of game birds.

Balanced amino acids and energy level to provide for rapid economical growth.

Flexibility to use in free-choice and grind-and-mix.

Organic selenium to help maintain a healthy immune system.

NutriVantage™ technology which can promote a healthier gut environment and help provide immune system support.

MIXING AND FEEDING DIRECTIONS

	Layer 16	Layer 14
	18-52 wks	52 wks to end
Ground corn	1100	1400
Home Fresh 27 Poultry	900	600
TOTAL	2000	
2000		

Provide oyster shell free-choice.

TURKEYS

0 - 12 weeks	27 Poultry	-
12 weeks & up	27 Poultry	50%
	Corn	50%

GEESE

0 - 4 weeks	27 Poultry	-
4 weeks & up	27 Poultry	40%
	Corn	60%

PHEASANTS, QUAIL, PEAFAWL, ETC.

0 - 7 weeks	27 Poultry	-
7 weeks & up	27 Poultry	70%
	Corn	30%

Feed chick-size grit at the rate of 1/2 lb per 100 birds for the first 6 weeks, then 1 lb per 100 birds per week.

DUCKS

0 - 3 weeks	27 Poultry	-
3 weeks & up	27 Poultry	50%
	Corn	50%

Corn in the above rations should be finely cracked. Provide grower-size insoluble grit to ducks and geese at the rate of 2 lb per 100 birds per week. Feed the above as the sole diet.

27 POULTRY

For laying hens, turkeys, geese, ducks, pheasants & game birds.

38 POULTRY BASE

PRODUCT DESCRIPTION

A supplement designed to be mixed with grain to make developer and laying feeds for replacements, layers, and as an option for broilers. Its nutrient profile is especially suited for use in making feeds for egg-strain birds. In addition to being adequately fortified with vitamins and minerals, it also contains ingredients believed to help the birds withstand stressful conditions better.

FEATURES AND BENEFITS

Protein provided is a balance of vegetable source and crystalline amino acids to ensure the amino acid requirements of birds are met.

Organic selenium yeast has demonstrated in research studies to be more bio-available, resulting in increased selenium content of eggs.

NutriVantage™ technology which may promote a healthier gut environment and help provide immune system support.

MIXING DIRECTIONS

BACKYARD BASICS™ STARTER

PRODUCT DESCRIPTION

Backyard Basics Starter is a complete, balanced 20% protein diet designed specifically for starting chickens.

FEATURES AND BENEFITS

Precisely Formulated - to address the specific needs of starting chickens.

Fortified - with added amino acids, minerals and vitamins to promote healthy birds.

Complete Feed - requiring no nutritional supplementation.

Available as a crumble in a 50-lb bag.

FEEDING RECOMMENDATIONS

Backyard Basics Starter is designed to be fed as the sole diet to starting chickens.

For additional feeding recommendations consult your local KNG Representative. You can look into additional Blue Seal products at www.blueseal.com.

The suggested feeding program is intended solely as a guide. The variables of management, environment, and breed may dictate changes in the birds' requirements.

HOME FRESH® STARTER AMP

PRODUCT DESCRIPTION

Home Fresh® Starter AMP Medicated is a complete, balanced 20% protein, high-energy grain diet designed specifically for developing pullets and broilers. Starter has guaranteed levels of essential amino acids necessary for growth and reproduction as well as healthy skin and feathers. Medicated to help prevent the onset of coccidiosis.

FEATURES AND BENEFITS

Vegetarian Diet - providing wholesome grains and healthy plant proteins.

Nutritiously Balanced - with added amino acids, minerals and vitamins.

Locked Formula - no substitution of inferior ingredients.

NutriVantage® Technology - for added immune support.

Available as a crumble and meal in a 50-lb bag.

FEEDING RECOMMENDATIONS

Home Fresh Starter AMP Medicated is designed to be fed as the sole diet to:

- replacement chickens (pullets) from 0 up to 20 weeks of age or first lay.
- broilers from 0 weeks to market.

For additional feeding recommendations consult your local KNG Representative.

WARNING: Use as sole source of Amprolium.

CAUTION: Do not use Amprolium in feeds containing bentonite.

HOME FRESH® STARTER AMP MEDICATED

A complete diet for starting and developing replacement chickens (pullets) and broilers. As an aid in prevention of coccidiosis where immunity to coccidiosis is not desired in pullets and as an aid in prevention of coccidiosis in broilers.

ACTIVE DRUG INGREDIENT

HOME FRESH® MULTI-FLOCK BREEDER

PRODUCT DESCRIPTION

Home Fresh® Multi-Flock products are designed to meet the specific life-stage nutritional needs for your entire flock. These high-energy, corn-based diets offer your flock complete nutrition with guaranteed levels of essential amino acids to promote optimum gain and added oil for feather plumage and skin condition. Formulated for optimum gain, health, vigor, and plumage.

Home Fresh® Multi-Flock Breeder is a complete feed for pheasant, quail, chukar, and turkey breeders to be fed during the laying season.

FEATURES AND BENEFITS

Vegetarian Diet - providing wholesome grains and healthy plant proteins.

Naturally Balanced - with added amino acids, minerals and vitamins.

Locked Formula - no substitution of inferior ingredients.

NutriVantage® Technology - for added immune support.

Available as a pellet in a 50-lb bag.

FEEDING RECOMMENDATIONS

Home Fresh Multi-Flock Breeder is designed to be fed as the sole diet to:

- poultry and game bird breeders throughout the breeding, laying and hatching period.

Keep fresh, clean water before the birds at all times and practice careful sanitation. Do not overcrowd.

For additional feeding recommendations consult your local KNG Feed Representative.

The suggested feeding program is intended solely as a guide. The variables of management, environment, and breed may dictate changes in the birds' requirements.

HOME FRESH® MULTI-FLOCK BREEDER

A complete diet for mature poultry
and game bird breeders.
